NOTES FOR APPLICANTS FOR FLYING MEMBERSHIP:

Disabled Pilots and those with CAA specified or other relevant medical conditions:

It is the policy of the BGA to encourage disabled pilots to fly within the limits of their disability and subject only to the limits of public safety. These pilots will require individual consideration. Under Air Navigation Order (ANO) 2016, there is a general requirement for pilots to not suffer from any medical conditions, have had any surgery, or any functional disability that might impair the safe operation of the aircraft.

If you are in any doubt whatsoever that you may have a CAA specified or other relevant medical condition, you are obliged to raise this before completing this application and, where appropriate, you may be asked to provide a report from your GP or an Air Medical Examiner. The club can provide guidance and a form for your GP to complete. CAA Specified Medical Conditions can be found by following the links on the CAA website at www.caa.co.uk

To fly as a pupil: you must not have any medical problem that prevents you from holding a licence to drive a private car. If you have any doubt about that, you must provide a statement from your GP to that effect.

To fly solo: you must submit a medical declaration. The medical standards and the form can be seen in Laws and Rules of the BGA at <https://members.gliding.co.uk/library/bga-requirements-guidance/pilot-medical-requirements/>.
