7. **Medical Declaration:**

To fly as a pupil under instruction, you must not have any medical problem that prevents you from holding a licence to drive a private car.

When flying under instruction, you will be doing so with a suitably qualified pilot. There are specific medical requirements that individuals need to satisfy before they fly solo. This does not apply to pilots under instruction.

The following conditions may cause difficulty while flying (if you suffer from any of these, particularly the more serious conditions, it may be wise to obtain medical opinion):

Blackouts from any cause	Ear disease
Epilepsy	Defective vision
Severe head injury	Migraine
Recurrent fainting or giddiness	Diabetes of any form
High blood pressure	Kidney stones
Angina	Psychiatric disorders
Coronary artery disease	Severe motion or travel sickness
Bronchitis	Sinus disease
Asthma	Other conditions requiring treatment with drugs

In addition, pregnancy, minor illnesses, drugs and the donation of blood may make you temporarily unfit to fly and you should seek medical advice before doing so.

I declare that I will bring to the attention of my instructor, in confidence, any medical condition which could cause an adverse effect during flight.

I am aware that it is my personal responsibility to ensure that if there is doubt about my fitness to fly, I will not fly and will seek advice from my GP.

I understand that a formal medical declaration countersigned by my regular GP will be required before solo flight as set out in BGA Laws and Rules medical standards.
